LAUDER

The Electrolarynx CompanyTM

Welcome to Lauder Enterprises, Inc.

We are in the business of making people talk, and this has been our mission from the beginning.

The company was started by Jim Lauder 30 years ago with the mission to spread “Self Help for The Laryngectomee”, the book his father Col. Edmund Lauder authored.

Col. Lauder was himself a laryngectomee and at this time, there were not much help to find. To help others in the same situation, Col. Lauder wrote a book which became the go-to source for many people, and the book has continuously been edited & updated for nearly 50 years.

His son, Jim Lauder, created Lauder Enterprises, Inc., and has continued his fathers legacy. After 30 years he has become known across the US a trusted resource for patients and clinicians.

Electrolarynx.com

For 30 years we have been carrying all major brands of electrolarynges - Servox, iVox, Griffin, Nu-Vois and more. There is not one device that is superior to the others; they all have unique features and we can help you find the one that would help you the best. We also service and repair all major brands and models, including older, discontinued models still out there (we still see 15-20 year old Servox devices and repair them if needed). We also carry batteries to all brands, stoma care products, accessories and parts.

The Servox Guru

Our President, Jim Lauder aka “the Servox Guru”, has been helping the laryngectomy community for three decades and is still highly active in this quest. His deep knowledge of electrolarynges is second to none. He is highly invested in helping laryngectomees on Facebook, Youtube and he attends as many support group meetings as he can manage.

He hosts a channel on YouTube, look for the Servox Guru. He continuously adds new videos with tips & tricks and how to fix things.

Can't find what you were looking for?

We carry most of what you may need. What we don't carry, we usually know where you can get it and will be happy to refer you to a distributor!

Call toll-free 800-388-8642, our main telephone 210-492-0864 or e-mail info@electrolarynx.com.

Welcome!

Electrolarynx - We Carry & Service All Major Brands!

There is no such thing as “the best electrolarynx”. After 30 years we learned a few things, and one of the most important thing to understand is that there is no device that is *the best*. It is all up to what works best for You!

There are devices with rechargeable batteries, custom made batteries, standard AAA, AA or 9V batteries. There are one-button and two-button devices. There are devices that still work after 25 years and there are those with USB ports. Warranties vary from 1-5 years. So, in line with our belief in extraordinary customer service we offer all of the most viable devices on the market!

How do they work?

All devices we carry basically operate the same way. They are all handheld, battery operated devices, designed to produce vibrations which allow speech for the laryngectomee. They have been around for many years and from servicing them, we know them in and out.

You can find **the Servox Guru** on YouTube, with videopresentations of all brands, plus tips on how to fix issues.

We are US distributors of Servox, a German brand that has been on the market since 1958. We still meet users with 25 year old Servox speech aids and we still service them.

Any kind of battery you need, call us and we will help you.

Call Roman 800-388-8642

Questions

Visit our website www.electrolarynx.com, watch the Servox Guru on YouTube or simply call us 1-800-388-8642.

The iVOX Electrolarynx

- a new artificial larynx designed for easy use.

- **Unique Tone Variation**
- Automatic tone variation helps eliminate both unnatural tone swings and flat monotone voices.
- **Easy adjustments**
- All tone and volume adjustments are made from one external thumb-wheel, eliminating the need for disassembly or complicated instructions.
- **Light indicator**
- Interactive lights let you know when the iVox is ready to go, when you are in adjustment mode or when the battery is getting low.
- **Flexible power**
- Can be used with a standard 9V battery or rechargeable batteries.

- Length: 4 1/4 inch
- Diameter: 1 3/8 inch
- Weight: Less than 5 oz.
- 2-year limited warranty with accidental damage protection.
- Made in America.

iVOX™
ELECTROLARYNX

More natural voice and user-friendly interface
AVID™ Voice System (Patent Pending)

Automatic tone variation added as you speak. An easy and more natural solution.

Both tone and volume adjustment from one thumbwheel without disassembly or special tools.

Accidental Ready-Go button bump-buzz prevention.

Interactive lights provide feedback for Ready-Go mode, tone-adjust and low-battery status.

9-volt batteries.

Length: 4 1/4 inch
Diameter: 1 3/8 inch
Weight: Less than 5 oz.

2-year limited warranty with accidental damage protection.

Order separately or with complete kit including charger, rechargeable batteries and oral adapter.

ARCHER™
MEDICAL DEVICES LLC

REF IV01: the iVox Electrolarynx

Comes in complete kit including

- charger,
- rechargeable batteries and
- oral adapter.

The Servox Guru comments:

- *very simple to use*
- *easy adjustments with one button*
- *works well with the Blom-Lauder Oral Adaptor*
- *great quality, made in Kentucky*

Servox Digital XL Electrolarynx

- the latest model from the leading electronic larynx company in the world!

An electronic larynx that sets new standards of excellence

The Servox Digital XL speech aid is a high quality new edition of the well-known Servox Digital. With its modern power management the battery performance has been significantly increased, extending speaking time by more than 50% compared to previous models.

It provides up-to-date vocal rehabilitation for laryngectomised and tracheotomised patients, it is an electrolarynx suitable for patients who lost their voice due to injury, illness or surgical removal of the larynx.

PERFORMANCE: Thanks to its modern and smart power management, the Servox Digital XL speech aid offers significantly extended battery performance.

FLEXIBILITY: Provides more freedom and flexibility due to already included rechargeable batteries, a universal travel adapter and a high-quality belt pouch.

QUALITY: Combines technologies proven since 1958 with the state-of-the-art components and first class raw materials.

REF SV02XL: Servox Digital XL Electrolarynx

- Servox Digital XL
- oral tubes with an adapter,
- 2 sounding heads: normal and “soft tone”
- 8 AAA rechargeable batteries,
- a charger,
- a travel adapter,
- a lanyard & a belt pouch.

The Servox Guru comments:

- *Common AAA batteries*
- *Digital - extended battery life*
- *Vary intonation with 2 pitches*
- *Very dependable machine*
- *Highly recommended!*

Servox Digital Electrolarynx

- reliable machine with special batteries for easy charging

With the Servox Digital electrolarynx it is possible to speak immediately after surgery. It is very easy to learn and especially suited for noisy environments and stressful situations.

High Voice and Sound Quality: Individual sound characteristics of your electrolarynx are possible with the help of two different sound caps.

Optical Battery Control: A flashing red light on the Servox Digital indicates that the battery is low and requires charging. An elaborate energy management system extends the battery life and prevents deep discharge.

Processor-Controlled Battery Charger: Intelligent charging technology ensures simple, safe and rapid recharging of the Servox battery. The battery can be left in the device during charging. A replacement battery can be charged at the same time.

REF SV02: Servox Digital Set

- Servox Digital Electrolarynx
- LA 2.40 charger, 2 NiMH batteries
- Hip bag, Safety cord with cord protector
- Oral adapter, 2 sound caps for individual sound

Servox Inton Electrolarynx

the workhorse - time tested quality!

4.6” long and weighing approx. 6 ounces, this speech device is light and compact. One advantage of its titanium housing is that it is not affected by perspiring hands.

The volume level can be adjusted to each situation using a small wheel ergonomically situated next to the two speech buttons. The pitch can be adjusted to meet the wishes of each individual user.

REF SV01: Servox Inton Set

Kit includes Instrument, two batteries, charger, oral adapter, holster, and extra sounding head.

Tru-Tone Electrolarynx

Made by Griffin Labs, USA

The TruTone™ Electrolarynx is the only electronic speech aid with tone control in a single button.

Features:

- 5-Year Warranty!
- 2-Year Drop & Soak Coverage
- The only electrolarynx with single button tone control
- The widest tonal range available in an electrolarynx
- Uses convenient 9V Batteries
- Smallest 9V speech aid currently available
- Light weight - only 4.5 ounces!
- Made in the USA.

REF TT01

Solatone Electrolarynx

Made by Griffin Labs, USA

The SolaTone™ artificial larynx is a high quality, steady tone speech aid that's easy to use and easy on your budget.

The SolaTone™ Electrolarynx is a sturdy, reliable speech aid. An excellent backup device for your current electrolarynx.

Features:

- Quality Sound
- Lightweight and Compact
- Easy Single-Tone Button
- 9V Battery Operation
- Quality Construction
- Good Volume Range
- Great Value Artificial Larynx

REF ST01

Nu-Vois and Xtra-Vois Electrolarynx

Made by Nu-Vois, USA

Each electrolarynx in the Nu-Vois product line provides high quality voice with full control of tone and volume.

- **Nu-Vois III Digital (REF NV03)** the most advanced model incorporating state of the art electronics that allows full digital control of all functions. Dual On/Off Control buttons that can be set individually for desired pitch and volume. The advanced electronics are designed to minimize battery draw, allowing for extended battery life. Five year warranty.
- **The Nu-Vois II Digital (REF NV02)** allows full digital control of volume and tone. No disassembly required for adjusting the settings. Five year warranty.
- **The Nu-Vois I (REF NV01)** provides high quality voice with manual adjustment. Outer case is made from durable polycarbonate, a high-impact resistance and durable material. Five year warranty.
- **The Xtra-Vois I (REF XV01)** Makes a great backup device. One year warranty.

Each unit is:

- Able to operate on a rechargeable 9V battery, as well as an alkaline 9V.
- Shock and water resistant.
- Lightweight — only 4.5 ounces with the battery installed!

Stoma Foam Filters

It's very important to protect the stoma and to pay attention to humidification.

"So much attention is focused on the loss of voice that many people never realize another large physical change that happens to us when we have a laryngectomy. We become neck breathers. We have a new opening at the base of the neck where the intake of air into the trachea is now located. The opening there is called a tracheostoma or to shorten it, a stoma."

"You will breathe easier, cough out thinner mucus with less effort, and have a cleaner, healthier stoma if you will irrigate, use a humidifier, and keep your stoma covered to avoid losing moisture each time you exhale. If you are away from your humidifier, carry a small spray bottle with clean water and use it to spray your stoma and your stoma cover. Keeping this area moist is the secret to avoid any crusting (dried mucus in and around the stoma) and to keep any bits of dried mucus or blood from solidifying inside your trachea. If you are crusting or coughing up dried bits, add more moisture. Being well hydrated by drinking plenty of liquids is also a important in keeping the mucus softened."

from <http://www.webwhispers.org/library/stoma-care.asp>

ADDvox Humidi-Foam Stoma Filters

- the newest addition to our portfolio. Very popular, good quality!

Moisture Exchange Stoma Filters

Breathe easy through soft, free-flowing foam that offers virtually no resistance, while helping warm and moisten the air you breathe.

Low resistance, lightweight ADDvox Humidi-Foam Stoma Filters offer excellent protection against dust, dirt and pollen, while helping warm and moisten the air you breathe.

Designed for single use, with a hypoallergenic non-irritating self-adhesive strip that is comfortable and easy to apply.

- Not recommended for cannula users.
- Skin tone or White colored.
- 2-1/4" wide x 2-1/2" high x 1/8" thick.
- Day or night, you'll breathe easier!
- Package of 60 filters.

REF: TR1115 Flesh and TR1115 White

< **FREE Storage Pouch included**

Servona Tracheofix filters

Tracheofix Foam Filters protects the tracheostoma and may help prevent dust or dirt particles from entering the airways. In addition, it may help to warm and moisten respiratory air. This tracheostoma protection is suitable for patients who do not wear a cannula or only require one occasionally. Tracheofix is not intended for continuous cannula wearers. 10 filters per box.

all foam varies somewhat in color from piece to piece

Kapitex Laryngofoam Filters

Kapitex filters offer the laryngectomee lightweight, comfortable and unobtrusive protection. The filters warm, moisten and filter the incoming air and can be applied in seconds.

- The only filters with Hydrolox® 1 Foam
- Kapitex filters are held securely in place by a hypoallergenic adhesive strip.
- The simplicity and effectiveness of this product ensures its popularity throughout the world with laryngectomees in all climates and conditions.
- Kapitex filters have excellent moisture transfer properties which means better humidification within the trachea for breathing comfort and confidence.
- Soft rounded edges are a unique feature of the Kapitex foam filter range.

- Available in both white and beige colors.
- Use 1-2 per day as necessary.

Stoma Starter Kit

The Stoma Starter Kit for the new laryngectomee includes:

- *Self Help for The Laryngectomee* (book),
- Shower shield,
- Buchanan covers (small & large),
- Genell white stoma cover,
- Samples of various foam filters.

REF SK01

Buchanan Stoma Cover

The Buchanan Protector is more than just a neckworn bib. It is a serious medical device designed to improve the patients breathing and quality of life.

New adjustable Easy-Tie strap fitting

Name	Size	Color	Pcs	REF
Small	5.5"x4.75"	white	1	BC02
Large	8.5"x7.5"	white	1	BC02

Delivers unique benefits to neck breathers through effective product design and material composition — the crucial benefits delivered by the exclusive Hydrolox 1 Foam.

- Pure cotton, sandwiching Hydrolox 1 Foam, allows a soft fabric feel against the neck.
- Hydrolox 1 Foam is effective in removing dust and dirt particles as well as providing moisture and warmth to inhaled air.
- Wearing the protector will help to reduce the risk of chest problems caused by cold, dry, unfiltered air. The Buchanan Protectors feature a non adhesive tie strap (Easy-Tie).

Romet Stoma Cover

Casually confident in a choice of colors and styles!

The Romet covers are high quality garments, produced from 100% mercerised cotton, designed to allow quick access to the stoma.

- Touch to close fastenings
- Classic Italian design
- 100% mercerised cotton
- Breathable

Romet Covers are available in 10 different colors (see picture). Easy to use, the touch to close fasteners, which are supplied need to be sewn onto the neckband. These popular covers are a must to help complete the neck breather's wardrobe.

Spokeman Personal Voice Amplifier

Now there's an even smaller voice amplifier, with surprising volume and sound quality!

With the Spokeman you can be heard more easily whether talking to one person or a small group up to 25 depending on surrounding noise level. Useful in the car, bus or train, at family gatherings, parties or meetings, in a restaurant, in a small class or seminar, etc.

Carry case and strap allows you to carry it over your shoulder, fasten it around your waist or Velcro® it around your belt. Or take the Spokeman out of the case and set it on a table, desk or night stand. Has an on/off/volume knob. Runs on rechargeable AAA batteries, the Spokeman can also use 6 standard AAA alkaline, non-rechargeable batteries if you prefer. It even has a jack to amplify CD players, small radios, or communication boards.

HIPAA Readiness Statement

Lauder Enterprises Inc. appreciates the relationships we share and it is important for us to inform you of our efforts to comply to all applicable HIPAA regulations covering “Privacy Standards.” As a business charged with the responsibility of receiving, processing, distributing, and storing “private health information” (PHI), our business procedures and computer systems have been modified to incorporate compliance requirements. In some cases, Lauder Enterprises may disclose health information only for the purposes of facilitating payment of patient invoices for our clients. Prior to disclosing such information, Lauder Enterprises must first receive a signed HIPAA Consent Agreement from the patient. These agreements will assure all parties that individual healthcare information privacy rights are maintained to safeguard patient information.

Medicare

A Medicare enrollment form is available upon request. Please contact our customer service department for a copy of the form.

If a patient is a Medicare beneficiary, we will need a completed Medicare enrollment form and a copy of the beneficiary’s Medicare insurance card. This form need only be submitted one time, unless information such as address or eligibility status has changed. Once current information is on file, Medicare claims will be submitted on a routine monthly basis for Medicare primary customers.

Insurance Reimbursement

A copy of your purchase receipt will be mailed to you after each shipment/purchase. These receipts may be included in the claim to a private insurance carrier.

Required Documents and Information

All documents can be downloaded from www.electrolarynx.com, emailed or sent to the patient’s address upon request.

Verification of Receipt

My signature below acknowledges that I have received the Patient Bill of Rights, Medicare Supplier Standards, HIPAA Information, Warranty Information, Instruction Manual For The Device, Complaint Resolution and how to contact Lauder Enterprises, Inc. after hours.
